1. The amendment filed on October 17, 2005 has been filed. Accordingly:
 - Claim 1 has been amended; and
 - Claim 7 has been canceled.

Allowable Subject Matter

2. Claims 1-6 and 8-16 are allowed.

The prior art of record, including Sommers (US Patent Application Pub. No.: US 2003/0180037 A1), Ishikawa et al. (US Patent No.: 6,179,447 B1) and Arai et al. (US Patent No.: 5,287,135), does not show or suggest the applicant's invention as claimed. Specifically, the prior art of record does not disclose the photographic light source device combining:

- the photographic light source device of Claim 1 further having a convex lens with linear fresnel cuts recited in Claim 1.

The above-indicated combination, including a convex lens with linear fresnel cuts makes this invention unique.

Sommers (US Patent Application Pub. No.: US 2003/0180037 A1), Ishikawa et al. ('447 B1), and Arai et al. ('135) each discloses a photographic light source including a fresnel lens. However neither combined nor individual teaching of Sommers (US Patent Application Pub. No.: US 2003/0180037 A1), Ishikawa et al. ('447 B1) and Arai et al. ('135) discloses a photographic light source including a convex lens with linear fresnel cuts as claimed by the applicant.

Therefore, prior art of record does not meet the limitations of the independent claim 1. Thus, Claim 1 is allowed over prior art.

Claims 2-6 and 8-16 necessarily allowed because of their dependency on the allowed base Claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
